## The First Week of School!

*This year, we are so excited to have our 8th-10th graders interviewing and gathering information for our newsletter! Here's what they found:*

### **Highlights from Week 1...**

Our Favorite Subjects: Math, Writing, Reading, DEAR, Language Arts, PE, Art, Recess, Snack-Time, All of it, Gym Night, and Science.

This week, our incredible Kindergarten students made their own school out of Legos! They named it the "Super Slide School"! They like playing with puzzles and play-doh, but they don't really like naptime or quiet time. They got to read "Jonah and the Whale" as a class!

Our amazing 2nd-4th graders are learning multiplication, especially their times tables, and cursive writing already! They like being back at school and playing at recess with friends.

Our fantastic 6th-8th graders have really liked reviewing math this week! They also like their teacher's sense of humor. They have been enjoying working on designing bottle rockets, writing stories, and meeting new people.

Our epic 9th-10th graders have been studying the story of Esther, are working on presentations about early Americans, and have been learning about different women who have stood up to things that were unfair in society.
